SUMMARY

Results-driven Software Developer with 2+ years of professional experience designing and building scalable backend systems, real-time computer vision pipelines, and microservice architectures using **Python**, **Node.js**, **FastAPI**, and **Django**. Skilled in building REST APIs, facial-recognition pipelines with **MediaPipe** and **OpenCV**, and database-driven systems across **MongoDB**, **MySQL**, and **PostgreSQL**. Experienced in third-party API integrations, **Docker** containerization, and leveraging AI tools (Claude, ChatGPT) to accelerate delivery.

WORK EXPERIENCE

Software Developer, Viscus Infotech Limited

January 2026 – Present

- Building a **Live Attendance Monitoring System** powered by Computer Vision for real-time employee tracking.
- Developing scalable **Node.js** backends and **Python** computer vision scripts for face detection pipelines.
- Implemented face score logic using **MediaPipe** for accurate facial landmark analysis and liveness detection.
- Designing and managing **microservices architecture** with optimized **SQL** database schemas for high-throughput attendance data.

Software Developer, RapidSurge Innovation Pvt Ltd

July 2024 – January 2026

- Built **RIoAI** – a product-based Quick Commerce Pharmacy Delivery App delivering medicines within 15–20 minutes.
- Developed backend modules using **FastAPI** and integrated third-party logistics APIs (EvitalRx, Firebase).
- Containerized services with **Docker** for consistent development and deployment environments.
- Leveraged AI tools – **Claude & ChatGPT** – to accelerate development workflows and boost team productivity.
- Implemented background task scheduling using **Celery & Redis**; architected systems for the Picker, Delivery, and Promoter Apps.

Backend Developer Intern, Shamaim Lifestyle Pvt Ltd

July 2023 – July 2024

- Built backend infrastructure from scratch using **Django REST Framework**.
- Designed and optimized **SQL** database schemas for performance and scalability.
- Implemented secure authentication & session management with **JWT** tokens.

PROJECTS

Task Management System with Authentication & SMS Notifications

[Link to Demo](#)

Developed a secure Task Management system using FastAPI with API-key authentication. Implemented user registration and task-creation workflows, and integrated Twilio SMS for OTP-based verification and notifications, ensuring secure and reliable communication.

Doctor Management System & Disease Prediction Platform

Developed a healthcare management system with secure user authentication, MySQL database design, and a machine-learning-based disease-prediction module. Implemented role-based access control (RBAC) and patient-privacy safeguards.

Real-time Chat Application & File Sharing System

Built a Django-based real-time messaging system with WebSocket support, secure file sharing, a responsive UI, and efficient storage for message history.

EDUCATION

July 2023 – Aug 2025	MBA (Information Technology), Graduate School of Business	(CGPA: 8.8)
Aug 2019 – May 2023	B.Tech, PIEMR	(CGPA: 8.67)
Mar 2018 – Apr 2019	Class 12th, CBSE	(70%)
Mar 2016 – Apr 2017	Class 10th, CBSE	(72%)

SKILLS

Languages & Frameworks:	Python, Node.js, FastAPI, Django, JavaScript
Computer Vision & AI:	MediaPipe, OpenCV, Face Detection
Web Technologies:	HTML, CSS, JavaScript, Bootstrap
Databases:	MongoDB, MySQL, PostgreSQL, Redis
Tools & DevOps:	Docker, Git/GitHub, Celery, Postman, Linux, Microservices
Operating Systems:	Windows, Linux
API Integration:	RESTful APIs, Third-party API Integration
AI Tools:	Claude, ChatGPT

ACADEMIC ACHIEVEMENTS

- Secured 4th Rank in DAVV University Academic Excellence.
- Awarded University Scholar for Outstanding Academic Performance.

CERTIFICATIONS

French Language Certification

Completed a certification in French language from December 2023 to February 2024.

Advanced Data Science with Python

Completed a course in Advanced Data Science with Python from January 2022 to January 2023.

INTERESTS

- Creative Writing (Poetry and Philosophical Thoughts)
- Travel and Photography (Nature Photography)
- Technology Innovation and Emerging Trends
